

PRODUCTS  
OVERVIEW

BOHAMET

BOHAMET S.A. has been the undisputed leader in the production of ship windows and doors for almost 40 years. From the beginning of its activity, BOHAMET S.A. focuses on the development and continuous improvement of production processes so that the company's products better meet the growing needs of customers. Thanks to the high quality of our products and services, we have earned the opinion of a reliable and trustworthy partner.

The offer of BOHAMET S.A. includes elements manufactured in three plants: a ship window and door production plant, an aluminum joinery production plant, and a glass processing plant.

The ship window and door production plant produces various types of ship windows, steel, aluminum and GRP doors, as well as hatches and wiper systems. The EX department belonging to this plant produces mining equipment such as highly advanced explosion-proof boxes.

The glass processing plant supplies panes for the production of windows for its own needs, as well as panes as a separate product.

The aluminum joinery production plant is the youngest plant, it has been operating since 2010. It supplies balcony systems, hinged and sliding doors, windows, facades and other specialized products.

# SHIP WINDOWS

## SHIP WINDOWS - FIXED

<b>installation method</b>	welded
<b>shapes available</b>	rectangular, trapezoid, circular, oval, special
<b>frame material</b>	ST, SS, AL
<b>glass retainer material</b>	ST, AL, brass
<b>optional mulion options</b>	vertical, horizontal external storm cover, deadlight

<b>installation method</b>	bolted
<b>shapes available</b>	rectangular, trapezoid, circular, oval, special
<b>frame material</b>	ST, SS, AL
<b>glass retainer material</b>	ST, AL, brass
<b>optional mulion options</b>	vertical, horizontal external storm cover, deadlight

<b>installation method</b>	clamped
<b>shapes available</b>	rectangular, trapezoid, circular, oval, special
<b>frame material</b>	ST, SS, AL
<b>glass retainer material</b>	ST, AL, brass
<b>optional mulion options</b>	vertical, horizontal external storm cover, deadlight

## SIDE SCUTTLES - FIXED

<b>installation method</b>	welded
<b>frame material</b>	ST, SS, AL
<b>glass retainer material</b>	ST, AL, brass
<b>optional mulion options</b>	vertical, horizontal external storm cover, deadlight

<b>installation method</b>	bolted
<b>frame material</b>	ST, SS, AL
<b>glass retainer material</b>	ST, AL, brass
<b>optional mulion options</b>	vertical, horizontal external storm cover, deadlight

## SHIP WINDOWS - OPENING

<b>installation method</b>	welded
<b>shapes available</b>	rectangular, trapezoid, circular, oval, special
<b>frame material</b>	ST, SS, AL
<b>glass retainer material</b>	ST, AL, brass
<b>optional mulion options</b>	vertical, horizontal external storm cover, deadlight

<b>installation method</b>	bolted

BOH.0232	weathertight	A60	2	ST	9
BOH.0245 - up to 0.7bar	watertight	A60	2	ST	32
BOH.0335	weathertight	A60	1	ST	6, 8
BOH.0340	watertight	A60	1	ST	8, 10
BOH.0411	internal	A30	1	ST	-
BOH.0412	internal	A60	1	ST	-

# WIPERS

## WIPERS

**types** pantograph / pendulum  
**models** W40.16-A  
W40.16-AS  
W60.16-A  
W60.16-AS  
W60.16-A.02  
W60.16-Z  
**cleaning area** up to 70%

**types** horizontal  
**models** WAL.E.2100  
WAL.I.2100  
**cleaning area** up to 90%

**Accessories:** spray system, electrovalves, tanks for spray systems, PSU power distribution cabinets.

## WASHING UNITS

**Advanced washing units** Model WWS.01 Model WWS.03 Model WWS.300D Such units are used to supply the appropriate cleaning agent to the piping system and nozzles installed on windows or wipers. Such devices have functions such as:

- Fresh water heating
- Additional detergent tank
- Additional glycol tank
- Automatic refilling of fresh water in the main tank
- System pressure measurement up to 7 BAR
- Electronic level measurement in all liquid tanks
- Full communication with the system installed on the bridge along with signaling of low fluid levels
- Advanced control system based on the MS 24 VDC touch panel that controls the wipers.

# ALUMINUM JOINERY

**type** hinged doors  
**application** internal, external  
**fire rating** -  
**material** AL 6060 / 6063, anti-corrosion precoat, powder painted  
**infill** glass, solid panel  
**options** window, panic fittings, el. drive, etc

B15

A0

A30

**type** hinged doors  
**application** internal, external  
**fire rating** B15, A0, A30  
**material** AL 6060 / 6063, anti-corrosion precoat, powder painted  
**infill** glass, solid panel  
**options** window, panic fittings, el. drive, etc

B15

**type** fixed window  
**application** internal, external  
**fire rating** non-rated, B15  
**material** AL 6060 / 6063, anti-corrosion precoat, powder painted  
**infill** glass  
**options** functional glass

**type** manual sliding doors  
**application** internal, external  
**fire rating** -  
**material** AL 6060 / 6063, anti-corrosion precoat, powder painted  
**infill** glass, solid panel  
**options** low sill, el. drive, child lock

A0

**type** automatic sliding doors  
**application** internal, external  
**fire rating** non-rated, A0  
**material** AL 6060 / 6063, anti-corrosion precoat, powder painted  
**infill** glass, solid panel  
**options** heated sill, remote network control, radar, barrier, overload safety switch

## ALUMINUM JOINERY

- type** inner window
- application** internal
- fire rating** non-rated, B15
- material** AL 6060 / 6063, anti-corrosion precoat, powder painted
- infill** glass
- options** soundproof glass up to 41dB

- type** facade, public glazing
- application** internal, external
- fire rating** -
- material** AL 6060 / 6063, anti-corrosion precoat, powder painted
- infill** glass, solid panel
- options** functional glass

## MODULAR BALCONY SYSTEM

- type** BOHSLIDE balcony door (horizontal or vertical)
- material** AL 6060 / 6063, anti-corrosion precoat, powder painted
- pressure load** up to 18kPa
- options** child lock, smoke detector, el. drive, AC switch

- type** balustrade
- material** SS, AL 6060 / 6063, anti-corrosion precoat, powder painted
- pressure load** up to 5kPa
- options** safety glass, AL / wood/ composite handrails

- type** divider
- material** AL 6060 / 6063, anti-corrosion precoat, powder painted
- options** safety glass, solid panel,

- type** flooring with water drain system
- material** AL 6060 / 6063, anti-corrosion precoat, powder painted
